Panel

Tulunid or Abbasid, mid-2nd to early 4th centuries AH / 9th-early 10th centuries CE

W: 86 cm; H: 24.8 cm

Inv. no. 4618

Carved panel, partially preserved, with beveled-style decoration composed of a deeply carved trefoil flanked by kidney-shaped leaves set within semi-undulating palmettes. Terminal palmettes divide into three leaves, and a narrow rectangular border composed of oval cartouches with incised lines and small pierced holes framing the composition.
