Panel

From the complex of Sultan Qalawun (683-84 AH / 1284-85 CE)

Fatimid, c. 540 AH / 1058 CE

Wood

W: 71.8 cm; H: 43 cm

Inv. no. 4134

Wooden panel, partially preserved, decorated with a lively arrangement of vegetal and faunal imagery. Both the central field and surrounding borders feature vegetal scrolls with trefoil leaves and buds, interspersed with birds and four-legged animals such as deer and rabbits. The finer details of the animals are now largely obscured, either through wear or because they were originally rendered in paint rather than carved in relief, a practice attested in other Fatimid woodwork.
