Cabinet Front

W: 103 cm; H: 190 cm

Hall 4

Inv. no. 539

Cabinet front in a style characteristic of the Mamluk or Ottoman periods, decorated with a central geometric star pattern surmounted by a khawranq composed of a trio of openwork scalloped arches flanked by small colonettes. The upper arcade introduces an architectural note to the composition, while the storage compartment is fitted with an early hinge mechanism employing a simple loop wire, a practical and long-established solution in wooden furniture and fittings.
