Frieze

From the madrasa of Tatar al-Higzaiyya

Bahri Mamluk, 761-62 AH / 1360 CE

Wood

W: 81 cm; H: 24 cm

Inv. no. 1585

Wooden panel, likely part of a longer frieze, with a repeating pattern of reciprocal polylobed arches inscribed with smaller ogee arches, trilobed fleurons, bifurcated leaves, and buds. The remains of polychromy in green and red attest to the once brightly colored appearance of the panel.
