Mirror

Wood

D: 6.6 cm

Inv. no. 6120/6

Convex mirror set within a rounded wooden frame with a small handle at the back; used to make images appear smaller. It was donated alongside Nos. 6120/2, 4-5, by the Makufiyas brothers. Though its findspot remains unknown, its grouping with a set of single-sided combs hints at the lived domestic context these objects once shared.
